CANCELLATION NOTICE: Please give 24 hours notice in the event of a cancellation. This will allow me to schedule someone else!

MSP (Medical Service Plan): BC Health Care, will reimburse \$23.00 for patients who qualify for Premium Assistance (subsidy for the BC health care plan for low income) to a maximum of 10 combined specialist (naturopathy, chiropractor, physiotherapy etc.) appointments. Dr. Maltais' office will submit a form to MSP on your behalf. MSP will mail reimbursements directly to you the patient in 6-8 weeks.

EXTENDED MEDICAL BENEFITS: Extended Health Plans often cover some or all of the fees for Naturopathic visits. Contact your extended health carrier to determine how much is covered per visit and per year. Patients are responsible for submitting their receipts to their companies for reimbursement. If supplements have a DIN number (Drug Identification Number), write the number on the receipt and sometimes the extended health insurer will reimburse for those products.
